PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA-CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IP1c (DIA). The photographic analysis for this particular report was performed by the Production Center IP1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (I) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements/batteries, (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

DESCRIPTION OF INSTALLATION

Railroad Service

The Novograd-Volynskiy-Korosten railroad passes through the training area. The presence of rail loading ramps cannot be determined.

Road Service

Primary and secondary roads from Novograd-Volynskiy serve this training area.

Administration and Troop Housing Area

Novograd-Volynskiy Army Barracks Southeast is located in the southern part of this training area. A bivouac area is located in the northern portion.

General Storage Area

Logistic support is probably provided by Novograd-Volynskiy Army Barracks Southeast.

Other Buildings

Driver-Training Areas

M1 is an irregular-shaped area containing irregular-shaped, tracked-vehicle, closed-circuit, driver-training courses.

Area M2 contains a figure-8, wheeled-vehicle, closed-circuit, driver-training course.

M3 is an irregular-shaped area containing several irregular-shaped, tracked-vehicle, closed-circuit, driver-training courses.

All driver-training courses were first observed in [REDACTED] 25X1D.

Tank-Assault Gun Firing Ranges

The training area contains eight tank-assault gun firing ranges. Area N1 is 2,000 feet long and contains three 1,400 foot lines. Area

N2 is 1,800 feet long and contains two 1,400-foot lanes and a moving target. Area N3 is 2,000 feet long and contains two 2,000-foot lanes and a stationary target. Area N4 is 3,500 feet long and contains two 2,000-foot lanes and two moving targets. Area N5 is 5,000 feet long and contains three 3,500-foot lanes and three moving targets. Area N6 is 5,000 feet long and contains four 2,500-foot lanes and four moving targets. Area N7 is 4,000 feet long and contains four 2,500-foot lanes and five moving targets. Area N8 is 5,500 feet long and contains six 2,500-foot lanes and four moving targets. Two of the lanes in Area N8 appear to extend beyond the normal length, which would allow the tanks to continue past the first set of targets in order to engage the targets located at the farthest range.
